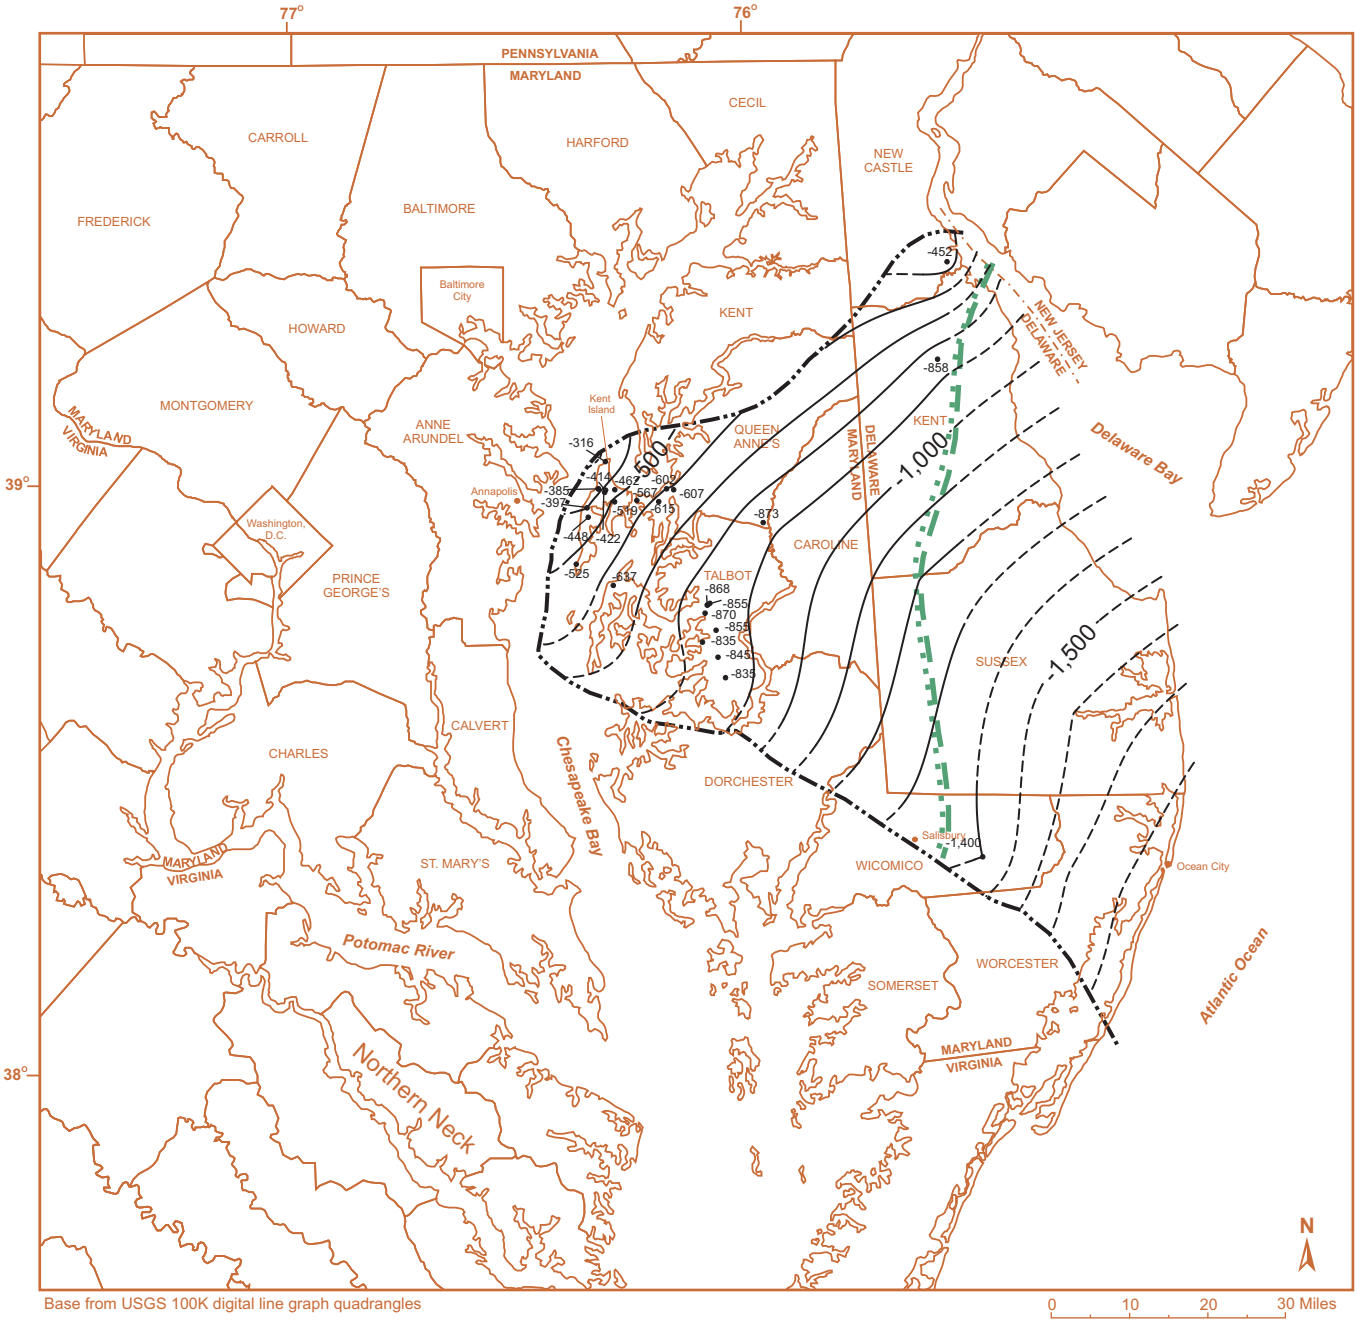
Altitude of the top of the Matawan aquifer.



EXPLANATION

-1,500 — Altitude of the top of the Matawan aquifer. Dashed where inferred. Contour interval is 100 feet. Datum is sea level.

-835 — Borehole--Number is altitude of the top of the Matawan aquifer, in feet related to sea level.

Base of aquifer

Top of aquifer — 1,000 milligram per liter isochlor line (Meisler, 1989)

Approximate extent of the Matawan aquifer
